

The SUM Program for Medical Transcription Training
Inventory of Reports with Lengths in Minutes

Surgery Transcription Unit-Intermediate			
Cardiovascular/Thoracic Surgery			
Report ID	Length	Assigned	Lines
1. Mediastinal exploration	03 min 40 sec		
2. Aortic and mitral valve replacement and coronary artery bypass graft	07 min 13 sec		
3. Intra-aortic balloon removal and repair of common femoral artery	02 min 15 sec		
4. Pacemaker implantation	02 min 50 sec		
5. Hemodialysis catheter placement	01 min 28 sec		
6. Dialysis graft	02 min 37 sec		
7. Off-pump coronary artery bypass grafting	07 min 23 sec		
8. Abdominal aortic aneurysm repair	08 min 21 sec		
9. Heart-lung transplant	04 min 24 sec		
10. Ligation and stripping of varicose veins	03 min 17 sec		
11. Thoracotomy, lung lobectomy	03 min 38 sec		
12. Bronchoscopy with lavage	02 min 23 sec		
Cardiovascular Surgery Exam	06 min 53 sec		
Gastrointestinal Surgery			
Report ID	Length	Assigned	Lines
1. Flexible sigmoidoscopy	00 min 56 sec		
2. Hemorrhoidectomy	03 min 40 sec		
3. Incision and drainage of perirectal abscess	02 min 55 sec		
4. Exploratory laparotomy, lysis of adhesions, release of small-bowel obstruction, closure of possible pancreatic head fistula, and drainage of abdominal wall abscess	05 min 11 sec		
5. Abdominal exploration, low anterior resection with primary anastomosis and a diverting loop ileostomy	05 min 54 sec		
6. Abdominal perineal resection, Mitrofanoff appendicostomy	05 min 50 sec		
7. Incarcerated ventral hernia repair with mesh	03 min 02 sec		
8. Appendectomy	04 min 31 sec		
9. Liver biopsy	1 min 40 sec		
10. Liver and kidney transplants	05 min 38 sec		
11. Laparoscopic cholecystectomy	05 min 05 sec		
12. Laparoscopic Nissen fundoplication	01 in 48 sec		
13. Upper GI endoscopy with esophageal dilatation	04 min 48 sec		
Gastrointestinal Surgery Exam	05 min 19 sec		

The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

Genitourinary Surgery			
Report ID	Length	Assigned	Lines
1. Suprapubic cystostomy	03 min 45 sec		
2. Circumcision	01 min 17 sec		
3. Ureteral stent placement	01 min 38 sec		
4. Bilateral vasectomy	02 min 00 sec		
5. Inguinal herniorrhaphy	01 min 45 sec		
6. Orchidopexy, inguinal herniorrhaphy	02 min 20 sec		
7. Ureteral reimplantation	02 min 39 sec		
8. Cystoscopy, suprapubic cystostomy, cryosurgical prostate ablation	05 min 23 sec		
9. Cystoscopy, transurethral resection of prostate	01 min 31 sec		
10. Laparoscopic donor nephrectomy	03 min 20 sec		
Genitourinary Surgery Exam	05 min 14 sec		
Head And Neck Surgery			
Report ID	Length	Assigned	Lines
1. Tracheostomy	02 min 05 sec		
2. Thyroid lobectomy and isthmusectomy	03 min 45 sec		
3. Wide excision skin graft, melanoma of scalp, modified neck dissection, parotidectomy	05 min 25 sec		
4. Thyroidectomy, central neck dissection, tracheostomy	06 min 37 sec		
5. Cervical lymph node biopsy	02 min 17 sec		
6. Tonsillectomy and adenoidectomy	04 min 48 sec		
7. Instrument reduction, nasal fracture	01 min 19 sec		
8. Septal dermoplasty, bilateral inferior turbinoplasties	02 min 43 sec		
9. Bilateral endoscopic ethmoidectomies, nasal antral windows, turbinectomies	04 min 26 sec		
10. Cautery of ear microcysts, unroofing of large cyst tract	01 min 43 sec		
11. Bilateral myringotomies with tubes	01 min 05 sec		
12. Tympanoplasty, mastoidectomy	03 min 44 sec		
13. Mastoid tympanoplasty	02 min 51 sec		
14. Ectropion repair	03 min 58 sec		
15. Vitrectomy, lens extraction, hyaloid membrane peel, scleral buckle, endolaser retinopexy, and silicone oil tamponade of eye	03 min 45 sec		
16. Phacoemulsification with vitrectomy and intraocular lens implant	04 min 54 sec		
17. Evisceration of eye	03 min 17 sec		
Head and Neck Surgery Exam	06 min 39 sec		

The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

Neurosurgery			
Report ID	Length	Assigned	Lines
1. Excision of meningioma	02 min 27 sec		
2. Ventriculoperitoneal shunt placement	04 min 32 sec		
3. Craniotomy, open biopsy of frontal cortex and white matter	03 min 46 sec		
4. Debulking of skull base sarcoma, cranioplasty, neuronavigation	05 min 33 sec		
5. Radiofrequency neurolysis	06 min 32 sec		
6. Excision of cervical disk, spinal fusion	02 min 00 sec		
7. Excision and ablation of neuromata	04 min 29 sec		
Neurosurgery Exam	04 min 24 sec		
Obstetrics & Gynecology Surgery			
Report ID	Length	Assigned	Lines
1. Dilatation and curettage under ultrasound guidance	04 min 24 sec		
2. Dilatation and curettage (D&C)	06 min 05 sec		
3. Suction dilatation and evacuation	02 min 57 sec		
4. Postpartum tubal ligation	02 min 23 sec		
5. Laparoscopy with fulguration of endometriosis, chromotubation	03 min 23 sec		
6. Rectocele repair	02 min 42 sec		
7. Laparoscopy, pain mapping, vulvar biopsy	02 min 49 sec		
8. Exploratory laparotomy, salpingo-oophorectomy	04 min 57 sec		
9. Incision of vulva, vulvar biopsy	02 min 20 sec		
10. Vaginal delivery	01 min 56 sec		
11. Cesarean section	03 min 52 sec		
12. Exploratory laparotomy, hysterectomy and bilateral salpingo-oophorectomy, lysis of adhesions	11 min 43 sec		
13. Exploratory laparotomy with partial left salpingectomy	03 min 31 sec		
14. Vaginal hysterectomy, rectocele repair and perineocele repair	05 min 31 sec		
ObGyn Surgery Exam	07 min 04 sec		

The SUM Program for Medical Transcription Training Inventory of Reports with Lengths

ORTHOPEDIC SURGERY			
Report ID	Length	Assigned	Lines
1. Revision of above-knee amputation, attempted myodesis	04 min 16 sec		
2. Calcaneal biopsy; irrigation and debridement of heel	03 min 05 sec		
3. Removal of external fixation, application of cast	01 min 06 sec		
4. Incision and drainage of tenosynovitis	03 min 05 sec		
5. Flexor tendon reconstruction, removal of Silastic rods, insertion of tendon graft	04 min 37 sec		
6. Transmetatarsal amputation	02 min 09 sec		
7. Carpal tunnel release	02 min 03 sec		
8. Wrist arthroscopy, open reduction and internal fixation (ORIF) of scaphoid nonunion, bone graft	14 min 36 sec		
9. Decompression and anterior transposition, ulnar nerve	03 min 04 sec		
10. Shoulder arthroplasty	07 min 19 sec		
11. Open reduction and internal fixation of trimalleolar fracture, screw fixation	05 min 07 sec		
12. Arthroscopy, meniscectomy, thermal chondroplasty	03 min 57 sec		
13. Total knee arthroscopy	02 min 12 sec		
14. Dynamic hip screw placement	04 min 19 sec		
15. Revision of acetabular component	04 min 29 sec		
Orthopedic Surgery Exam	07 min 25 sec		
PLASTIC SURGERY			
Report ID	Length	Assigned	Lines
1. Melanoma excision, sentinel node biopsy	02 min 06 sec		
2. Y-flap reconstruction of anal carcinoma	01 min 59 sec		
3. Fournier gangrene skin grafting	06 min 08 sec		
4. Orbital exploration, mobilization of eye, repair of orbital fractures	02 min 13 sec		
5. Ultrasonic-assisted liposuction, abdominoplasty revision	05 min 17 sec		
6. Third degree burn grafting	07 min 27 sec		
7. Skin graft reconstruction of external nasal defect	02 min 46 sec		
8. Cleft lip nasal reconstruction	02 min 40 sec		
9. Blepharoplasty, rhytidectomy	09 min 09 sec		
10. Breast biopsy	03 min 11 sec		
11. Excision of breast ductal carcinoma in situ (DCIS)	02 min 12 sec		
12. Transumbilical breast augmentation	01 min 55 sec		
13. Bilateral breast reduction	03 min 42 sec		
14. Radical mastectomy	03 min 49 sec		
15. Transverse rectus abdominis muscle (TRAM) flap	02 min 44 sec		
Plastic Surgery Exam	06 min 43 sec
